

Dear Valued Customer

I am sending my last annual spring letter out early this year.

As I enter my 38th year in business, I will be scaling back the services I provide. I will be only doing **Fall Sprinkler Shutdowns/Blowouts.**

My current plan is to continue to do fall shutdowns for the next 5 to 7 years.

For some of you that will mean finding a new service provider. For those that go that route-I thank you for your past patronage.

Unfortunately, I have no one or company that I would recommend. I encourage you to check with your neighbors, friends and coworkers for recommendations.

To help with my record keeping-I would appreciate it if you would email (jmoody55317@earthlink.net) or text (952-448-5720) your intention of either continuing or discontinuing your service of fall sprinkler shutdowns with me.

I will be sending out a fall shutdown schedule in mid September.

Thanks,
Jeff Moody
